Q1. Read the given Comprehension and answer the questions asked.

Ants are known for their hard work, organization, and resilience. Ants live in colonies that can range in size from just a few individuals to millions of ants. Each colony has a queen ant, whose main job is to lay eggs, and worker ants, who perform various tasks such as foraging for food, caring for the young, and defending the colony. One of the most remarkable things about ants is their ability to communicate with each other. They use pheromones, which are chemical signals, to send messages to other ants in the colony.
